

Cost-effective and Secure Ringlock Scaffolding System with Safety Factor ≥ 4

Our Product Introduction

for more products please visit us on bythaiscaffold.com

Basic Information

- Place of Origin: China
- Brand Name: Bythai
- Model Number: BT03

Product Specification

- Standard: EN12810 & EN12811
- Max Height: $\leq 30\text{m}$
- Horizontal Adjustment: $\leq \pm 3^\circ$
- Components: Vertical, Horizontal, Diagonal, Brace, Base Plate, Ladder, Etc.
- Joints: Double-locking
- Weight: $\leq 30\text{kg/m}^2$
- Vertical Load Capacity: $\geq 45\text{KN}$
- Safety Factor: ≥ 4

Product Description

Product Description:

Ringlock System Scaffolding is a type of formwork scaffolding product that is mainly constructed with ringlock ledger, which provides the highest safety factor of ≥ 4 , and is hot-dip galvanized for better surface treatment. With Horizontal Load Capacity of $\geq 15\text{KN}$ and weight of $\leq 30\text{kg/m}^2$, it is a lightweight and stable solution, and the Vertical Adjustment of $\leq \pm 3^\circ$ allows for easy adjustment and installation. This Ringlock System Scaffolding is ideal for formwork and other applications, and is highly recommended for anyone looking for a reliable Ringlock formwork solution.

Technical Parameters:

Attribute	Value
Safety Factor	≥ 4
Surface Treatment	Hot-dip Galvanized
Size	48.3mm
Vertical Adjustment	$\leq \pm 3^\circ$
Joints	Double-locking
Weight	$\leq 30\text{kg/m}^2$
Max Height	$\leq 30\text{m}$
Material	Q235 Steel
Horizontal Load Capacity	$\geq 15\text{KN}$
Warranty	2 Years

Applications:

Bythai BT03 Ringlock System Scaffolding is an ideal scaffolding system for a wide variety of applications. It is made of Q235 Steel and has a Hot-dip Galvanized surface treatment for superior durability and strength. The Ringlock System Scaffolding allows for a Horizontal Adjustment of up to $\pm 3^\circ$, and has a Vertical Load Capacity of $\geq 45\text{KN}$ and a Horizontal Load Capacity of $\geq 15\text{KN}$. It is perfect for Ringlock accessories, Scaffolding Ringlock, Ringlock formwork, Steel frame scaffolding, Structural Scaffolding and other Scaffolding System applications.

Customization:

Customized Ringlock System Scaffolding from Bythai(BT03)

Brand Name: Bythai

Model Number: BT03

Place of Origin: China

Weight: $\leq 30\text{kg/m}^2$

Size: 48.3mm

Safety Factor: ≥ 4

Surface Treatment: Hot-dip Galvanized

Vertical Load Capacity: $\geq 45\text{KN}$

Bythai's BT03 Ringlock System Scaffolding is specifically designed to provide the highest safety factor and vertical load capacity for your construction projects. It is made with hot-dip galvanized surface treatment which gives it superior strength and durability, and its lightweight design ensures easy installation and transport. The BT03 Ringlock System Scaffolding ensures a safety factor of ≥ 4 , a weight of $\leq 30\text{kg/m}^2$, a size of 48.3mm, and a vertical load capacity of $\geq 45\text{KN}$.

Packing and Shipping:

Ringlock System Scaffolding Packaging and Shipping

The Ringlock System Scaffolding is packaged and shipped as follows:

All parts and components are packaged in individual boxes.

The boxes are then secured in a wooden crate, which is then shrink-wrapped.

The boxes are then shipped via ground transportation.

FAQ:

Q: What is the brand name of Ringlock System Scaffolding?

A: The brand name of Ringlock System Scaffolding is Bythai.

Q: What is the model number of Ringlock System Scaffolding?

A: The model number of Ringlock System Scaffolding is BT03.

Q: Where is Ringlock System Scaffolding produced?

A: Ringlock System Scaffolding is produced in China.

Q: What is the material of Ringlock System Scaffolding?

A: Ringlock System Scaffolding is made of high strength steel.

Q: What is the size of Ringlock System Scaffolding?

A: Ringlock System Scaffolding is available in three sizes: 1.37m, 1.80m and 2.44m.
