Customized Length Scaffolding Plank for Construction Industry

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Bythai
- Model Number: BM205
- Minimum Order Quantity: 1000
- Price: 4.5-8.5
- Packaging Details: In bundles
- Delivery Time: 10-15
- Payment Terms: container, shipping

Product Specification

- Packaging: Container
- Material: Steel
- Length: Customized
- Place Of Shipment: China
- Surface: Pre-galvanized/hot Dip Galvanized/Spray Plastic
- Usage: Scaffolding
- Highlight: **Customized Construction Scaffolding Plank**, **Hot Galvanized Adjustable Scaffold Plank**, **Corrosion Resistant Galvanized Scaffolding Plank**

Product Description

Product Description:

Scaffolding Plank

Scaffolding plank is an essential component in any construction project. It serves as a platform for workers to stand on and carry out their tasks safely and efficiently. Our scaffolding plank is made of high-quality steel, making it the best choice for your construction needs.
Material: Steel

Our scaffolding plank is made of strong and durable steel, ensuring its stability and safety for workers. Steel is known for its strength and resistance to wear and tear, making it the ideal material for construction purposes.
Packaging: Container

Our scaffolding plank is packaged in containers for easy transportation and storage. This ensures that the planks are protected from any damage during shipment. We take extra care in packaging our products to ensure they reach our customers in perfect condition.
Length: Customized

We understand that every construction project is unique and may require different lengths of scaffolding planks. That's why we offer customized lengths to meet your specific needs. Whether you need shorter planks for small-scale projects or longer planks for larger projects, we've got you covered.
Place of Shipment: China

Our scaffolding planks are manufactured and shipped from China. We have a state-of-the-art production facility that ensures the highest quality of our products. We also have strategic partnerships with reliable shipping companies to ensure timely delivery to our customers worldwide.
Surface: Pre-galvanized/Hot Dip Galvanized/Spray Plastic

We offer three options for the surface finish of our scaffolding planks: pre-galvanized, hot dip galvanized, and spray plastic. Pre-galvanized planks are coated with a thin layer of zinc for added protection against corrosion. Hot dip galvanized planks are submerged in a bath of molten zinc, providing a thicker and more durable coating. Spray plastic planks have a layer of plastic coating on top, making them more resistant to scratches and damage.
Key Features:

Steel planks w/hook for easy installation and dismantling.

Galvanized steel scaffolding plank for added durability and longevity.

Galvanized steel plank with a smooth surface for safe and comfortable use.

Scaffold board with a strong load-bearing capacity for heavy-duty construction.

Metal scaffold plank with anti-slip design for enhanced safety.

In conclusion, our scaffolding plank is the perfect solution for all your construction needs. Made of high-quality steel and available in customizable lengths and surface finishes, our planks offer durability, safety, and convenience. Trust us for all your scaffolding needs and experience the best in the industry.

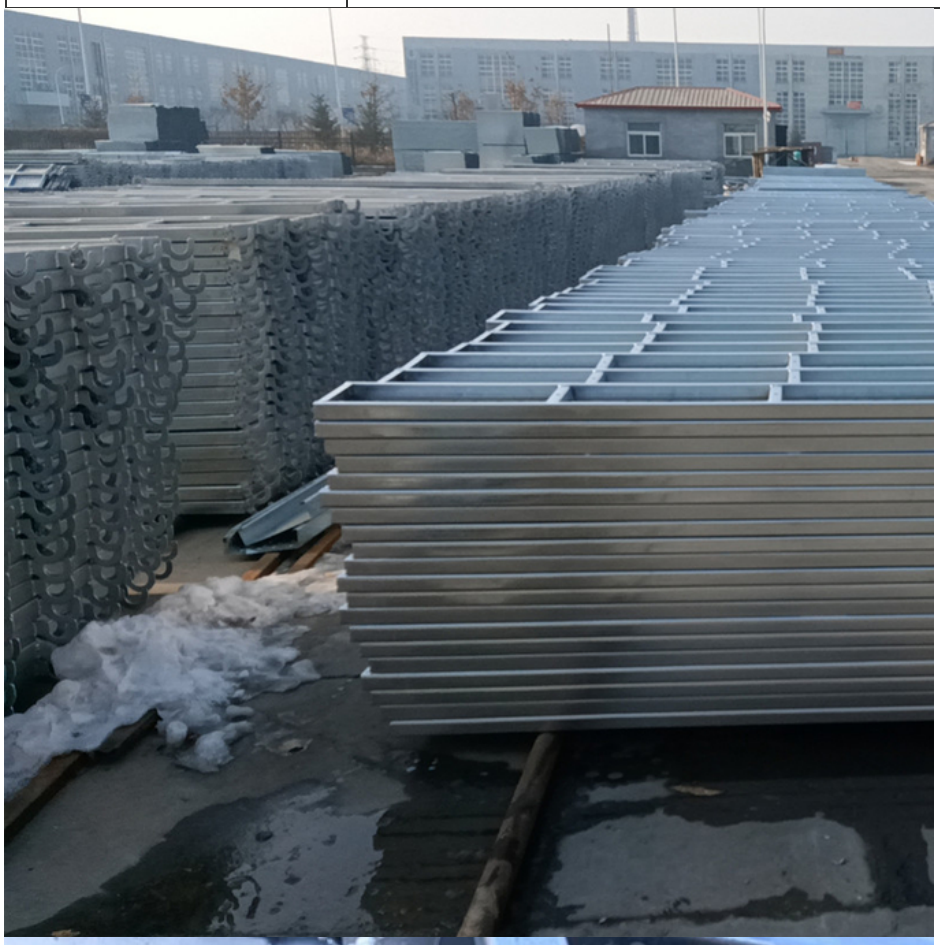
Features:

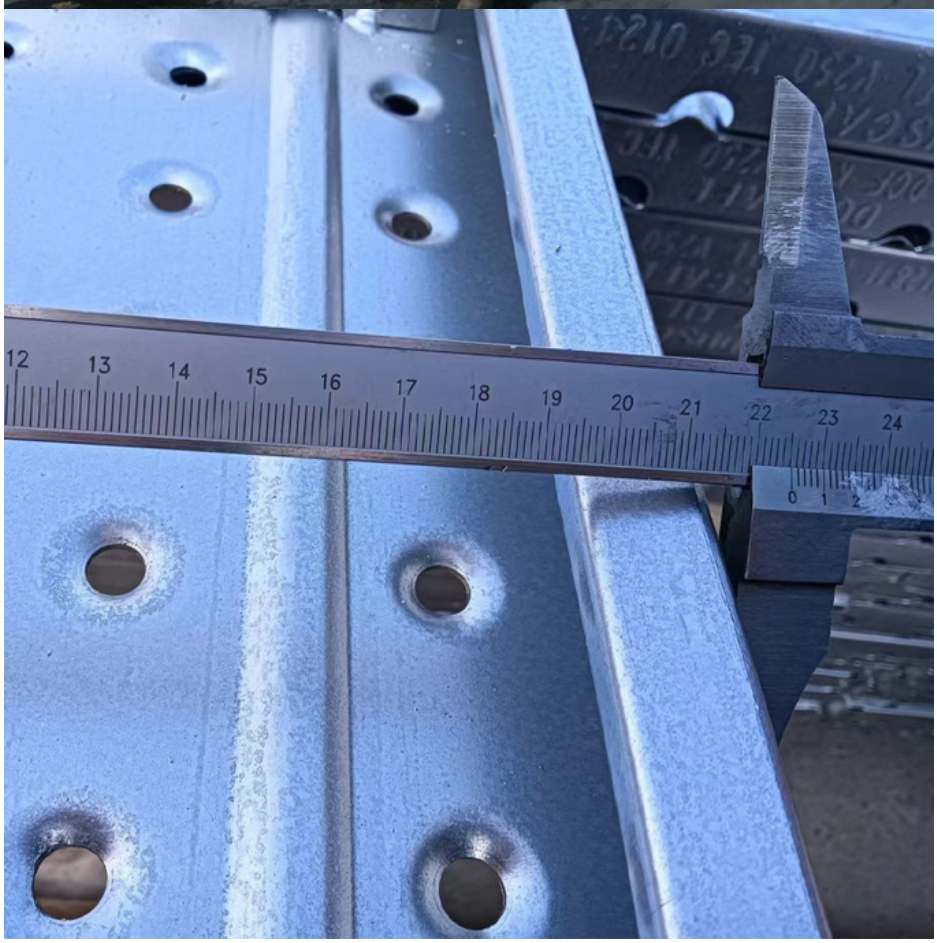
Product Name: Scaffolding Plank
Length: Customized
Packaging: Container
Usage: Scaffolding
Surface: Pre-galvanized/hot Dip Galvanized/Spray Plastic
Place of Shipment: China
Key Features:
Strong and durable
Customizable length for different scaffolding needs
Easy to transport and store with container packaging
Specifically designed for use in scaffolding systems
Available in pre-galvanized, hot dip galvanized, and spray plastic surface finishes for optimal rust and corrosion resistance
Manufactured in China with high quality materials and strict quality control processes
Compatible with steel plank 230, steel plank ringlock, and steel plank scaffold systems

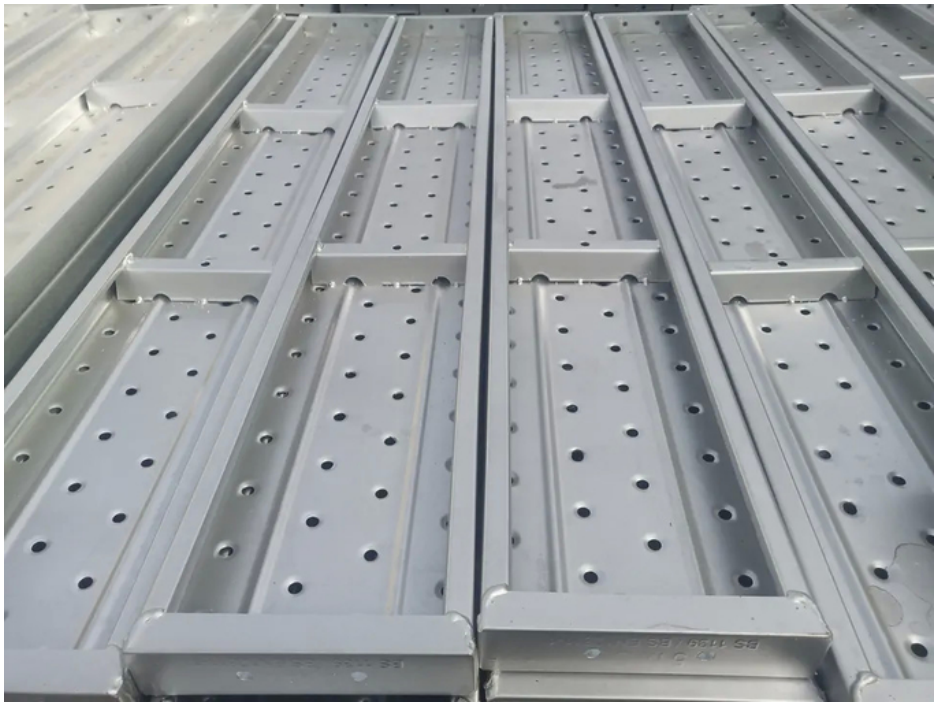
Technical Parameters:

Technical Parameters	Value
Product Name	Scaffolding Plank
Surface	Pre-galvanized/hot dip galvanized/spray plastic
Usage	Scaffolding
Length	Customized
Place of Shipment	China
Material	Steel

Packaging	Container
Key Features	- Made of galvanized steel
	- Equipped with hooks for easy installation and connection
	- Compatible with ringlock scaffolding system







Applications:

The Scaffolding Plank is primarily used for scaffolding purposes in construction, maintenance, and repair projects. It provides a stable and secure platform for workers to perform their tasks at various heights. It is suitable for both indoor and outdoor use, making it a versatile product for various applications.
Application:

The Scaffolding Plank is ideal for use in various industries, including construction, shipbuilding, oil and gas, and industrial maintenance. It is also commonly used in building bridges, tunnels, and other structures that require scaffolding for safe and efficient access.
Features:

Made from high-quality steel for durability and strength.

Available in different surface finishes to suit various working environments.

Customizable length to meet specific project requirements.

Can be used in both indoor and outdoor settings.

High load capacity to support workers and equipment.

Meets safety standards for scaffolding equipment.

Benefits:

Provides a safe and stable working platform for workers.
Reduces the risk of accidents and injuries on scaffolding.
Increases work efficiency and productivity.
Suitable for a wide range of applications in different industries.
Easy to install and dismantle, saving time and effort.
Cost-effective solution for scaffolding needs.

Product Specifications:

Material: Steel
Surface Finish: Pre-galvanized/hot dip galvanized/spray plastic
Length: Customized
Weight: Varies depending on length and surface finish
Load Capacity: Up to 500kg

Why Choose Bythai Scaffolding Plank?

High-quality and durable product.
Available in different surface finishes to suit various environments.
Customizable length to meet specific project requirements.
Competitive pricing with bulk order discounts.
Meets safety standards for scaffolding equipment.
Timely delivery and reliable customer service.
