Galvanized Steel Planks The Perfect Combination of Strength and Durability

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Bythai
- Model Number: BM205
- Minimum Order Quantity: 1000
- Price: 4.5-8.5
- Packaging Details: In bundles
- Delivery Time: 10-15
- Payment Terms: container, shipping

Product Specification

- Surface: Pre-galvanized/hot Dip Galvanized/Spray Plastic
- Length: Customized
- Place Of Shipment: China
- Material: Steel
- Packaging: Container
- Usage: Scaffolding
- Highlight: **Pre Galvanized Steel Planks**, **Hot Dip Galvanized Steel Planks**, **BS1139 Steel Scaffolding Plank**

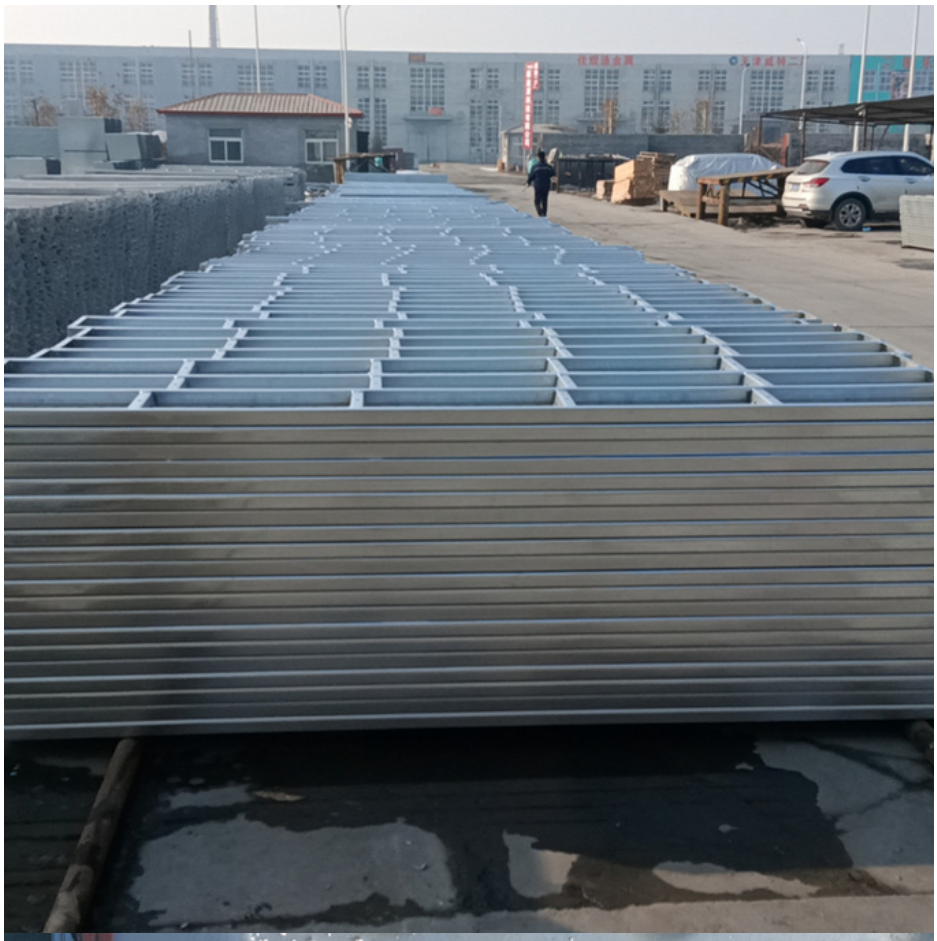
Product Description

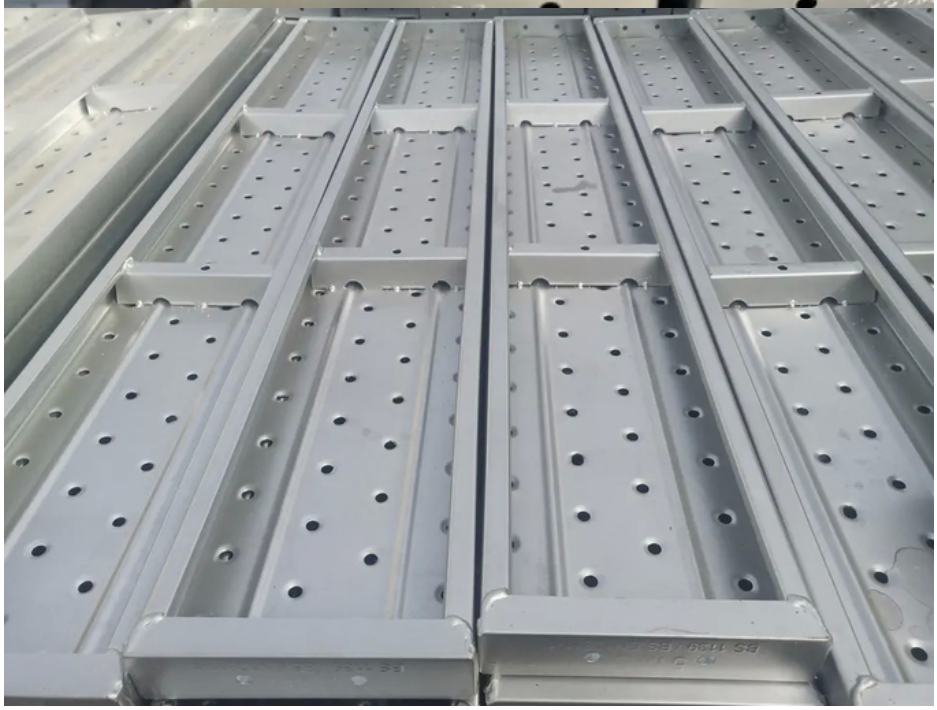
Features:

Product Name: Scaffolding Plank
Surface:
Pre-galvanized
Hot Dip Galvanized
Spray Plastic
Length: Customized
Material: Steel
Usage: Scaffolding
Place of shipment: China
Features:
Steel plank with hooks for easy installation and removal
Compatible with steel plank ringlock scaffolding
Part of a complete steel plank ringlock scaffolding system
Durable and sturdy construction for safety and stability
Customizable length options to fit various scaffolding needs
Available in different surface finishes for corrosion resistance
Made of high-quality steel for long-lasting performance
Manufactured and shipped from China for affordable pricing

Technical Parameters:

Technical Parameters	Details
Place of shipment	China
Usage	Scaffolding
Surface	Pre-galvanized/Hot Dip Galvanized/Spray Plastic
Material	Steel
Length	Customized
Packaging	Container
Steel frame for decking plank	BS1139 steel plank
Size	230x63x1.2x3000





Packing and Shipping:

Scaffolding Plank Packaging and Shipping

Our Scaffolding Planks are carefully packaged to ensure safe transportation and delivery to our customers. Here is an overview of our packaging and shipping process:

Packaging

Each Scaffolding Plank is individually wrapped with protective material to prevent any scratches or damages during transportation. We then stack the planks and secure them with heavy-duty straps to keep them in place.

For larger orders, we use pallets to stack and bundle the planks together. The pallets are also strapped and wrapped with protective material for added security.

Shipping

We offer various shipping options to cater to our customers' needs and budget. We work with reputable shipping companies to ensure timely and safe delivery of our products.

For smaller orders, we use standard shipping services, which typically take 3-5 business days for delivery. For urgent orders, we offer expedited shipping options such as overnight or express delivery.

For larger orders, we offer freight shipping services. Our team carefully loads the pallets onto the freight trucks and secures them to prevent any damages during transit.

Once the planks are shipped, we provide our customers with a tracking number to monitor the status of their delivery.

Final Inspection

Prior to shipping, our team conducts a final inspection of the Scaffolding Planks to ensure they meet our quality standards. We also include a packing list and any necessary documents with the shipment for our customers' reference.

We take great care in packaging and shipping our Scaffolding Planks to ensure they arrive at their destination in perfect condition. If you have any questions or concerns about our packaging and shipping process, please don't hesitate to contact us.
