Galvanized Ringlock Scaffolding Metal Steel Plank Scaffold Planks For Scaffold

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Bythai
- Certification: SGS,ISO
- Model Number: BT205
- Minimum Order Quantity: 1000
- Price: 15.5-85.5
- Packaging Details: In bundles
- Delivery Time: 10-15
- Payment Terms: container, shipping

Product Specification

- Length: Customized
- Place Of Shipment: China
- Material: Steel
- Usage: Scaffolding
- Surface: Pre-galvanized/hot Dip Galvanized/Spray Plastic
- Packaging: Container
- Highlight: **ringlock metal steel plank**, **galvanized metal steel plank**, **scaffold metal steel plank**

Product Description

Technical Parameters:

Material	Steel
Surface	Pre-galvanized/hot Dip Galvanized/Spray Plastic
Length	Customized
Packaging	Container
Place of Shipment	China
Usage	Scaffolding steel walking planks hook, steel frame for decking plank, galvanized steel plank

Applications:

The Bythai steel scaffolding plank is perfect for various occasions and scenarios. It is commonly used in the construction of high-rise buildings, bridges, and other large structures that require a stable platform. The galvanized steel material provides excellent resistance to corrosion and rust, making it suitable for outdoor use and harsh weather conditions.
Contractors and construction workers can customize the length of the steel scaffolding plank based on their specific needs. The pre-galvanized, hot dip galvanized, or spray plastic surface finish options allow for additional protection and customization. The steel scaffolding plank can be used in conjunction with other scaffolding equipment, such as frames, braces, and jacks, to provide a complete scaffolding system.
The minimum order quantity for the Bythai steel scaffolding plank is 1000 pieces, with a price range of 15.5-85.5 per piece, depending on the surface finish and length. The packaging details include bundling the planks in a container for easy transportation and delivery. The delivery time is typically 10-15 days, with payment terms of container or shipping.
In summary, the Bythai steel scaffolding plank is a versatile and durable product suitable for various construction scenarios. Its galvanized steel material, customizable length, and surface finish options make it a reliable choice for contractors and construction workers. It is a product worth investing in for a safe and efficient construction process.

Customization:

Choose from our three surface options: pre-galvanized, hot dip galvanized, or spray plastic. The planks come in customized lengths to fit your specific needs. The material is made of durable steel and comes with a hook for easy installation.
Payment terms include container and shipping options. Order now and get the best steel plank with hook for your scaffolding needs.
